

SUPPORTING OUR TRANSITION TO A MORE SUSTAINABLE EUROPEAN ECONOMY

Futures Benchmark – Towards Strategic Foresight for Sustainability (an academia-industry workshop)

Agenda:

- Welcome to SF4S (5 min)
- Results from 80+ interviews with experts in foresight, sustainability and innovation (15 min including 5 min Q&A)
- Introduction to co-development of exploratory and normative future scenarios for sustainable mobility & agri-food-health (5 min)
- Deep Dives in Breakout Groups (25 min):
 - A) Future Mobility Business Models
 - B) Future Agri-Food-Health
- Plenary Discussion (10 min)

Led by: Toni Ahlqvist, Henning Breuer, Sune Gudiksen

SF4S is a collaborative action with partners from Higher Education institutions (HEIs), Vocational Education and Training (VET) providers, innovation networks and business entities from the Agri-food, Health and the Mobility sectors. It supports our transition to a more sustainable European economy by helping to address the lack of green, digital and future (i.e. sustainability foresight) skills among students and professionals and by connecting knowledge flows between HEI, VET and industry actors to develop cooperative solutions on a large-scale and support the recommendations for action in the European reports and initiatives: Green Deal, NextGenerationEU, European Skills Agenda and OECD Future of Education and Skills 2030.
